

For Immediate Release

Major Discounts on Vienna Software

Vienna Symphonic Library's Limited Time Offer Through May 31, 2016

Vienna, May 2, 2016 – The Vienna Symphonic Library announces a one-month limited time offer with major discounts on their entire palette of software products.

25% Off all Vienna MIR and MIRx Products

Vienna MIR Pro is a network-capable mixing solution for Mac and PC, based on **Multi Impulse Response (MIR)** convolution technology. *Vienna MIR Pro 24* is a reasonably priced version, limited to 24 instruments, ensembles, and audio signals that can be placed on its virtual stages, but with the full-fledged functions of its big brother. Five different *RoomPacks* are currently available for *Vienna MIR Pro* and *MIR Pro 24* that may be purchased individually or as a Bundle at a discounted price.

MIRx Reverb Mixing Extensions were developed exclusively for Vienna's proprietary sample player software *Vienna Instruments* and *Vienna Instruments Pro*, offering the most convenient and affordable access to the stunning acoustics of renowned concert halls, sound stages, and churches – at a simple mouse click. A great variety of presets is included, placing and aligning instruments and ensembles automatically and at the appropriate spot on the virtual stage. The 25% discount during the month of May, 2016 applies to individual purchases of any *Vienna MIR* and *MIRx* product, as well as to the *RoomPack Bundle* and the *MIRx Bundle*.

20% Off all Software Products

All of Vienna's other software products are available at 20% off their regular price during the promotional period. They include the company's network-capable cross-platform mixing-host *Vienna Ensemble Pro*, the comprehensive and flexible *Vienna Instruments Pro* player, the audio processing plug-in bundles *Vienna Suite* and *Vienna Suite Pro*, as well as the *Vienna Software Package* that contains nine products at an already reduced bundle price. What's more, the discounts also apply to upgrade prices (e.g., from *Vienna Ensemble Pro 4* to the current version, from *Vienna Suite* to *Vienna Suite Pro*, or from *Vienna MIR Pro 24* to *Vienna MIR Pro*) and will be added to individual Complementary Discounts when completing a Bundle, such as the *Vienna MIR RoomPack Bundle*, the *MIRx Bundle* or the *Vienna Software Package*.

About the Vienna Symphonic Library

The Vienna Symphonic Library is an innovative, research-driven music software and sample library developer based in Vienna, Austria. The team continually strives to improve virtual orchestral music production with a special emphasis on authenticity and ease-of-use.

Vienna Instruments, the company's multi-award-winning virtual instruments in the formats AU, VST, AAX Native, and RTAS, encompass an exhaustive range of solo instruments and ensembles, from their flagship *Symphonic Cube* to special instruments such as the *Vienna Konzerthaus Organ*, the *Vienna Imperial* grand piano, saxophones, upright bass, and even distorted guitar. Recently, the company launched an entirely new venture: **Synchron Stage Vienna**, a unique scoring stage in Austria's capital that accommodates orchestras of up to 130 musicians, merges proprietary software innovations and revolutionary approaches with traditional recording technologies and procedures.

More information on the company's products can be found at www.vsl.co.at.
