New!

VIENNA ENSEMBLE PRO 6

Network-Compatible Mixing & Host Software

Introductory Offer through August 31, 2016

Dear Vienna Newsletter Subscriber,

The next major iteration of our hugely popular studio solution is here!

Since its first release in fall 2009 *Vienna Ensemble Pro* has become the definitive cross-platform network solution in studios and production facilities around the world.

Vienna Ensemble Pro 6 expands its array of studio tools with a wealth of new features and improvements. The new code base results in about 70% less CPU usage for all internal calculations. Improved multi-threading performance allows for faster plug-in scanning and shorter connection/disconnection times when switching between projects. New features include tabbed instances, VST plug-in hosting under OS X, channel grouping, VCA folders, channel freezing, customizable visibility options as well as an intelligent auto-save function.

Please find a detailed list of all new features here.

Introductory Price and Upgrade Offer

The upgrade to *Vienna Ensemble Pro 6* is currently available at a special price. What's more, if you upgrade now and **add 2 *Single Instruments*** of your choice to your order, you'll receive the **lowest priced product** in your basket **for FREE,** only through **August 31, 2016!**

If you're new to *Vienna Ensemble Pro* please check out our special **introductory offer** through August 31, 2016!

Click here for more details.

Best wishes from Vienna,
