

Dear Vienna Newsletter Subscriber,

We're very excited to present you with an entirely new Collection of orchestral percussion instruments, ushering in a new era for Vienna Symphonic Library: *Synchron Percussion I* was recorded at our newly revitalized scoring stage, *Synchron Stage Vienna*. The massive building from the 1940s with its outstanding acoustics has proven to be a remarkable space, not only for film music recordings, but also for sampling sessions.

*Synchron Percussion I* offers 16 of the world's finest percussion instruments, masterfully played and recorded in every nuanced detail, with up to **16 velocities and up to 8 alternate hits** at each velocity. We used an expansive, phase-controlled multi-microphone set-up including close and mid-layer mics, a Decca tree and an *Auro 3D* configuration to capture the ambience of Stage A, the facility's spacious main hall. The comprehensive selection of discrete audio channels gives you the flexibility to mix your instruments in stereo, surround and even immersive 3D sound.

### Introductory Price

*Synchron Percussion I* is available at a special introductory price through **May 31, 2017**. Sub-sets of instrument groups, including *Timpani*, *Drums*, *Mallets*, *Cymbals & Gongs*, *Bells*, and *Orchestral Percussion*, are available separately.
