

Dear Vienna Newsletter Subscriber,

We're happy to announce that all five sections of [Synchron Strings I](#) will be available within the next few days! We'll release the complete set of articulations of 1st violins and cellos, and all the basic articulations of 2nd violins, violas and basses. Performance articulations for these sections will be added in early 2018.

While our developers are working full steam on our new *Synchron Player*, we have improved our existing [Vienna Instruments](#) and [Vienna Instruments Pro](#) players to support *Synchron Strings I*. They will be available as free updates within the next few days. We're also providing ready-to-use stereo presets (downmixes) of all *Synchron Strings I* sections with lower CPU load by reducing the number of audio signals per instance. What's more, ready-made templates for [Vienna Ensemble](#) and [Vienna Ensemble Pro](#) will offer access to each individual microphone position.

More options, including simplified control over articulations and multiple mic positions, will be available with our new *Synchron Player*.

Don't miss to watch the [sneak peek video](#) of the *Synchron Strings I* cellos! We've also added two [audio demos](#) by Guy Bacos and Christof Unterberger.

Please note that the [Synchron Strings Early Bird Offer](#) is valid through **Friday, December 29, 2017**! Prices will go up to the Introductory Price (25% off the list price) after this date. Click [here](#) for more details!
