

VIENNA SYMPHONIC LIBRARY

Dear Vienna Newsletter Subscriber,

We're excited to announce our next new string library, **SYNCHRON-ized Chamber Strings**, featuring small string ensembles of six first violins, six second violins, four violas, three cellos, and two double basses.

For this Collection, our sound editors went back to the raw, unprocessed sample data of our acclaimed **Chamber Strings I** Collection. The original recordings were completely **re-edited** and **re-mastered** in order to achieve an all-new, modern chamber string sound that excels in terms of aesthetics, playability and realism.

Production-ready sound, out of the box: SYNCHRON-ized Chamber Strings comes with our new **Vienna Synchron Player** that features a **convolution reverb** derived from Vienna MIR Pro, providing the outstanding ambience of the main hall of Synchron Stage Vienna in real-time. With expertly crafted reverb and placement presets these small string ensembles blend perfectly with other Synchron Series libraries – especially with Synchron Strings I, since the articulations of both libraries are equally organized and fully compatible.

**Huge discounts for registered users of
Chamber Strings I and Synchron Strings I**
