

For Immediate Release

Vienna Smart Spheres – Ambient Symphonic Explorations

Vienna Symphonic Library offers a treasure trove of modern, breathing atmospheres

Vienna, January 9, 2019 – The Vienna Symphonic Library is pleased to announce the release of *Vienna Smart Spheres*, a new library product that uses hand-picked, organic samples from Vienna's vast archive to create experimental sounds in the categories of basses, leads, pads, plucks and pulses. *Vienna Smart Spheres* comes with the company's customized *Vienna Synchron Player* and is currently available at just €95 (reg. €125) through January 31, 2019.

Organic and Acoustic Sound Sources

For *Vienna Smart Spheres*, the Vienna Symphonic Library team went straight to their vast treasure trove of orchestral sounds, with all the liveliness and vibrancy that comes from live performance. While experimenting with the raw samples it became clear that their acoustic recordings would provide uniquely vibrant sounds with tremendous depth and interest. Using the possibilities of the included *Synchron Player* with its powerful integrated FX plug-ins and routing options, *Vienna Smart Spheres* offers everything from fearsome dark drones to heavenly ethereal spheres. The shimmering and impressive collection of sounds will be useful in any musical environment, from film scores to the more experimental side of electronic music.

Inspiring Presets for New Sonic Adventures

The included *Synchron Player* offers unprecedented streaming performance and a new level of sophisticated simplicity. With a broad variety of available presets, users may shape their individual timbre intuitively and in real-time, e.g., by gradually blending different elements of a sound or by changing the FX amount. Additionally, the flexible and open structure of the *Synchron Player's* user interface allows for far more detailed editing. The player's full-fledged internal multi-channel mixer comes with a slew of integrated effect plug-ins, such as EQ, compression, saturation, auto gain, an algorithmic reverb and much more.

Introductory Offer

Vienna Smart Spheres is currently available at €95 (reg. €125) through January 31, 2019. What's more, registered users of *Vienna Smart Orchestra* benefit from a special Crossgrade Price of €85 (reg. €115). Coinciding with this introductory offer, the price of the existing **Vienna Smart Orchestra** has been temporarily lowered from €175 (regular price) to €145.

About the Vienna Symphonic Library

The Vienna Symphonic Library is an innovative, research-driven music software and sample library developer based in Vienna, Austria. The team continually strives to improve virtual orchestral music production with a special emphasis on authenticity and ease-of-use. **Vienna Instruments**, the company's multi-award-winning virtual instruments in the formats AU, VST, and AAX Native, encompass an exhaustive range of solo instruments and ensembles, from their flagship *Symphonic Cube* to special instruments such as the *Vienna Konzerthaus Organ*, the *Vienna Imperial* grand piano, saxophones, upright bass, and even distorted guitar. Acclaimed software products include **Vienna Instruments Pro**, **Vienna Ensemble Pro**, **Vienna MIR Pro** and **Vienna Suite Pro**. In 2016, the company launched an entirely new venture: **Synchron Stage Vienna**, a unique scoring stage in Austria's capital that accommodates orchestras of up to 130 musicians, merges proprietary software innovations and revolutionary approaches with traditional recording technologies and procedures.
