## All-New Libraries from Vienna

*Vienna Symphonic Library showcases their latest developments at NAMM 2019*

Anaheim/Vienna, January 24, 2019 – At this year's Winter NAMM show the Austrian company presents their entire palette of library and software products, focusing on a slate of products that were released during the last couple of months: *Synchron FX Strings*, *Synchron Power Drums*, *Yamaha CFX*, *Synchron Concert D-274*, *Synchron-ized Chamber Strings*, *Synchron-ized Appassionata Strings*, *Synchron-ized Dimension Brass I & II*, as well as the latest additions to their starter editions, *Vienna Smart Orchestra* and *Vienna Smart Spheres*. The presentations are hosted by Vienna Symphonic Library's American distributor, ILIO, at booth #11910 in Hall A of the Anaheim Convention Center.

### New Synchron and Synchron-ized Series

Vienna's new *Synchron Series* libraries combine extraordinary musicianship, engineering, recording technology and the all-new **Vienna Synchron Player** with the exceptional lush acoustics of *Synchron Stage Vienna's* 5,813 sq.ft. main hall. Since its grand reopening in 2016, various international film and TV scores were recorded at this entirely refurbished scoring stage, including *Inferno*, *The Meg*, *The Girl in the Spider's Web*, *The Crown*, *Blue Planet II*, *Genius*, and many more. 2018 saw the release of four new library products that were recorded at *Synchron Stage Vienna*: **Synchron Power Drums**, featuring three legendary rock drum sets that can be played simultaneously or separately, **Synchron FX Strings** that includes a wide variety of both tonal and atonal musical phrases and effects, and two new concert grands including the **Yamaha CFX** and the **Synchron Concert D-274** that were captured with multiple microphone arrays.

The new Synchron-ized libraries include **Synchron-ized Chamber Strings**, **Synchron-ized Appassionata Strings**, and **Synchron-ized Dimension Brass I & II**. These libraries contain re-edited samples from the company's renowned and award winning *Vienna Instruments* series, customized and mapped for the new *Synchron Player* software that provides a new level of ease-of-use. What's more, a specifically designed integrated convolution reverb adds the

*Synchron Stage* ambience in real-time, blending the Synchron-ized libraries perfectly with the other *Synchron Series* products, resulting in a homogenous, production-ready sound “out of the box”.

### All-new Starter Editions

For many years, the highly popular *Vienna Special Editions* represented the company’s entry level products and the gateway to its vast database of instruments and articulations. With *Vienna Smart Spheres* and *Vienna Smart Orchestra*, two new library products have just been added to the *Starter Series* category. ***Vienna Smart Spheres*** provides a treasure trove of shimmering and organic atmospheres created exclusively from Vienna’s finest recordings. For an affordable price of currently €95 users get everything from fearsome dark drones to heavenly ethereal atmospheres with all the vibrancy and variability that comes from live performance. ***Vienna Smart Orchestra*** is the new all-in-one tool for sketching symphonic ideas, delivering scores on deadlines, and playing live on stage. This powerful and resource-saving package provides all the sections and lead instruments of the orchestra at once, spread out over the entire keyboard. It is currently available at a special price of €145.

### Vienna Protection Plan

Vienna Symphonic Library provides a new service and solution for users who lose access to their USB protection device (*ViennaKey* or *eLicenser*) in case of theft, loss or damage. The new *Vienna Protection Plan* offers help in these situations and comes in the form of a special license that can be purchased for €70 and downloaded right away to the user’s USB eLicenser. With the Protection Plan license on the USB device, all Vienna Symphonic Library product licenses on the respective *ViennaKey* are protected for a period of two years. In the event of theft, loss and damage, the user is asked to fill out a report on the company’s website and will receive a *Vienna Emergency License* right away in order to prevent downtime. After verification, all protected licenses of lost Vienna Symphonic Library products will be replaced free of charge. The *Vienna Protection Plan* is available exclusively at the Vienna Symphonic Library webshop and can be renewed upon expiration for an additional 2-year coverage.

### About the Vienna Symphonic Library

The Vienna Symphonic Library is an innovative, research-driven music software and sample library developer based in Vienna, Austria. The team continually strives to improve virtual

orchestral music production with a special emphasis on authenticity and ease-of-use. **Vienna Instruments**, the company's multi-award-winning virtual instruments in the formats AU, VST, and AAX Native, encompass an exhaustive range of solo instruments and ensembles, from their flagship *Symphonic Cube* to special instruments such as the *Vienna Konzerthaus Organ*, the *Vienna Imperial* grand piano, saxophones, upright bass, and even distorted guitar. Acclaimed software products include **Vienna Instruments Pro**, **Vienna Ensemble Pro**, **Vienna MIR Pro** and **Vienna Suite Pro**. In 2016, the company launched an entirely new venture: **Synchron Stage Vienna**, a unique scoring stage in Austria's capital that accommodates orchestras of up to 130 musicians, merges proprietary software innovations and revolutionary approaches with traditional recording technologies and procedures.
