

## **New: SYNCHRON-ized Special Edition Volumes 6 & 7**

*Vienna Symphonic Library releases new entry-level products featuring brass ensembles and historic instruments.*

*Vienna, August 13, 2019* – The Vienna Symphonic Library is pleased to announce new additions to their popular series of entry-level libraries. *SYNCHRON-ized Special Edition Volume 6* and *VI Special Edition Volume 6* offer the most important articulations of the company's popular *Dimension Brass Collections*. *SYNCHRON-ized Special Edition Volume 7* and *VI Special Edition Volume 7* include 22 instruments from the formerly published libraries *Historic Winds I-III*, *Recorders*, and *Glass Instruments*. To celebrate the occasion, the Austrian company offers a 30% discount on most of their other brass collections.

### **Special Edition Volume 6 – Dimension Brass**

The *VI Special Edition Volume 6*, powered by the players *Vienna Instruments* and *Vienna Instruments Pro*, as well as the *SYNCHRON-ized Special Edition Vol. 6*, powered by the *Vienna Synchron Player*, feature the most important playing techniques from the company's popular *Vienna Dimension Brass I* and *Vienna Dimension Brass II* Collections. Five brass ensembles of four players each are included: Four trumpets, four French horns, four trombones, four Wagner tubas and one "low brass ensemble" (one tuba, one bass trombone and two tenor trombones). All players of the ensembles were recorded with individual microphones as they played in homogeneous groups, capturing all of the human interactions and slight imperfections of a live performance. This unique recording process allows users to access each voice of the ensemble separately, either manually or with the automatic Humanize feature of the sample players *Vienna Instruments Pro* and *Vienna Synchron Player*. Articulations include staccato, sustained, marcato, legato and sforzato, all played with and without mutes.

### **Special Edition Volume 7 – Historic Instruments**

The *VI Special Edition Volume 7* and the *SYNCHRON-ized Special Edition Vol. 7* are the perfect choice for users following an authentic performance practice or for anyone who's looking for new inspiring sound sources. They include 22 instrumental rarities, taken from the formerly published libraries *Historic Winds I-III*, *Recorders* and *Glass Instruments*: Transverse flute, Baroque oboe,

oboe da caccia, ophicleide, serpent, cornett (zink), crumhorn, four recorders (covering the soprano, alto, tenor and bass registers), natural trumpet (in three different keys), natural horn (with seven different tuning slides), and glass harmonica. Articulations include staccato, marcato, sustained, legato and sforzato (except for the glass harmonica).

### Introductory Prices

Both new libraries are available in two versions: The *VI Special Editions Vol. 6* and *Vol. 7* come with the free *Vienna Instruments* player, while the *SYNCHRON-ized Special Editions Vol. 6* and *Vol. 7* are powered by the free *Vienna Synchron Player*. Each version is currently available at a special **introductory price** of €240 (reg. €325) each for the *VI Special Edition Vol. 6* and the *SYNCHRON-ized Special Edition Vol. 6*, and €195 (reg. €265) each for the *VI Special Edition Vol. 7* and the *SYNCHRON-ized Special Edition Vol. 7*, respectively. Existing users of the *VI Special Editions* may get the *SYNCHRON-ized* counterparts at super-low crossgrade prices, which are even lower in August, 2019, starting at €25.

### 30% Off all Brass Libraries

To celebrate the addition of *Dimension Brass* to the *Special Edition Series*, the company in August 2019 is offering a discount of up to 30% on all of the brass library products.

### About the Vienna Symphonic Library

The Vienna Symphonic Library is an innovative, research-driven music software and sample library developer based in Vienna, Austria. The team continually strives to improve virtual orchestral music production with a special emphasis on authenticity and ease-of-use. **Vienna Instruments**, the company's multi-award-winning virtual instruments in the formats AU, VST, and AAX Native, encompass an exhaustive range of solo instruments and ensembles, from their flagship *Symphonic Cube* to special instruments such as the *Vienna Konzerthaus Organ*, the *Vienna Imperial* grand piano, saxophones, upright bass, and even distorted guitar. Acclaimed software products include **Vienna Instruments Pro**, **Vienna Ensemble Pro**, **Vienna MIR Pro** and **Vienna Suite Pro**. In 2016, the company launched an entirely new venture: **Synchron Stage Vienna**, a unique scoring stage in Austria's capital that accommodates orchestras of up to 130 musicians, merges proprietary software innovations and revolutionary approaches with traditional recording technologies and procedures.
