For Immediate Release

FREE from Vienna: Big Bang Orchestra

Vienna Symphonic Library releases "Tutti" Orchestra Library, free of charge

Vienna, September 27, 2019 – The Vienna Symphonic Library team is thrilled to announce the release of *Big Bang Orchestra*, a brand-new library featuring samples from Vienna's famous *Synchron Stage Orchestra* playing all together ("tutti") on Stage A of the company's own *Synchron Stage Vienna*. It's the very space and ensemble that provided the sound for many Hollywood blockbusters and TV series, such as Ad Astra, The Meg, The Crown, Blue Planet II and many more. The new product is the Austrian company's way of saying "Thank You" to its worldwide community of music creators and is free of charge. A USB *eLicenser* such as the *ViennaKey* (or any other hardware *eLicenser*, e.g., by Steinberg or Arturia) is required. The *ViennaKey* is available at a discounted price of €15 (reg. €24) through October 31, 2019.

Massive Orchestra Sound at the Touch of a Single Key

Capturing a large "tutti" orchestra with string, brass and woodwind sections all playing together is a first for Vienna Symphonic Library. The sheer power of a massive orchestra, enhanced by the outstanding acoustic environment of the large hall of Synchron Stage Vienna, make for a powerful virtual instrument. Whether used as a source of inspiration, to create quick large-sounding demos, or to beef up existing tracks – *Big Bang Orchestra* contains all the ingredients to leave a lasting sonic impression, from earth-shattering accents to awe-inspiring "braaahhms". Articulations include staccatos, sustains, marcatos, swells and runs.

Powerful Presets

Big Bang Orchestra is powered by the included *Synchron Player* with its many integrated FX plug-ins and routing options. The integrated mixer allows users to adjust the level of the various mic signals or to change the sound and ambience of the entire ensemble in the room. What's more, the included mixer presets with settings from "Close" to "Distant" deliver quick and great-sounding results. The "Processed" presets provide an ultra modern, punchy and fat orchestral sound right out of the box.

Big Savings on the ViennaKey

Like all Vienna Symphonic Library products, the *Big Bang Orchestra* requires a USB eLicenser, a hardware-based copy protection system that is used by, e.g., Steinberg. The *ViennaKey* is Vienna Symphonic Library's version of the *eLicenser*, and it is currently available at a special promotional price of €15 (reg. €24) through October 31, 2019 at the company's web shop.

About the Vienna Symphonic Library

The Vienna Symphonic Library is an innovative, research-driven music software and sample library developer based in Vienna, Austria. The team continually strives to improve virtual orchestral music production with a special emphasis on authenticity and ease-of-use. *Vienna Instruments*, the company's multi-award-winning virtual instruments in the formats AU, VST, and AAX Native, encompass an exhaustive range of solo instruments and ensembles, from their flagship *Symphonic Cube* to special instruments such as the *Vienna Konzerthaus Organ,* the *Vienna Imperial* grand piano, saxophones, upright bass, and even distorted guitar. Acclaimed software products include *Vienna Instruments Pro, Vienna Ensemble Pro, Vienna MIR Pro* and *Vienna Suite Pro*. In 2016, the company launched an entirely new venture: **Synchron Stage Vienna**, a unique scoring stage in Austria's capital that accommodates orchestras of up 130 musicians, merges proprietary software innovations and revolutionary approaches with traditional recording technologies and procedures.
