

VIENNA SYMPHONIC LIBRARY

Dear Vienna Newsletter Subscriber,

We're happy to announce the release of **Synchron FX Strings I**. For the first time we're offering production-ready musical textures and loops of a 50-piece string orchestra, captured in our refurbished recording facility *Synchron Stage Vienna*.

Inspiring Soundscapes and Effects

Synchron FX Strings I is an infinite source of inspiration and a fantastic tool for designing entire worlds. Create everything from ethereal, atmospheric soundscapes to pulsating melodic ornaments, suspense clusters and aggressive strikes!

Our all-new *Synchron Player* makes it fun and easy to create complex musical structures. Just hold one or two keys, and add variety and changing colors by moving pre-configured controllers (bow style, density, velocity) to shape your very personal sound.

Please check out the audio and video demos on our website to get an impression about the various possibilities.

UPDATE for all Synchron Strings I Users

At this point, we'd like to inform our loyal users of **Synchron Strings I** who are eagerly waiting for our new *Synchron Player*. Currently we're working full steam on the necessary conversion of the sample content that we will provide to you together with the new customized *Synchron Player* shortly, free of charge. Thank you for your patience!

Best wishes from Vienna,
Your Vienna Symphonic Library Team
