

Dear Vienna Newsletter Subscriber,

### NEW: Special Edition Volume 5 – Dimension Strings

Even the best musicians never play in perfect unison; slight imperfections in pitch and timing, as well as different timbres and vibrato intensities create a lively, beautiful ensemble sound. That's why we recorded the string players of our ensembles in homogeneous groups, but with individual microphones for each instrument. This unique process allows you to access each voice of the ensemble separately, either manually or with the automatic Humanize feature of our sample players. Volume 5 expands our new SYNCHRON-ized Special Editions as well as the existing VI Special Editions.

Now, for the first time, our most flexible **Dimension String ensembles** are available at **entry-level prices!** What's more, we're **extending the promotional pricing on all Special Editions.**
