

VIENNA SYMPHONIC LIBRARY

Dear Vienna Newsletter Subscriber,

This April is all about strings! In addition to our major discounts on all Synchron Series string libraries, we're introducing our brand-new SYNCHRON-ized Solo Strings.

SYNCHRON-ized SOLO STRINGS

Sensitive and clear, exact and homogeneous, the performances of our six soloists are technically perfect and utterly convincing in their musicality. Based on our extremely successful VI Solo Strings, this **pristine library** contains the solo instruments violin 1, violin 2, viola, cello 1, cello 2 and double bass.

Each instrument has been optimized for the Vienna Synchron Player and improved in its playability and realism. Use the **new time-stretch feature** to change the vibrato speed in real-time or to adjust other articulations such as tremolos or portamentos. The integrated convolution reverb adds the outstanding ambience of Synchron Stage Vienna.

SYNCHRON-ized Solo Strings represents the most comprehensive collection with a **huge variety of articulations** providing extra-fine nuances for your arrangements.

“My goal is never to think about technology, but only about the music. VSL is definitely coming from a music point of view.”

- David Newman, Composer (Some Kind of Beautiful, Tarzan 3D, Ice Age)

Best wishes from Vienna,
Your Vienna Symphonic Library Team
