## Studio One & VIENNA SYNCHRON PLAYER

Dear Vienna Newsletter Subscriber,

We're happy to announce an exciting feature in collaboration with PreSonus! A two-way communication between Studio One 5.2 and our Vienna Synchron Player makes articulation switching extremely easy and convenient.

**Studio One automatically shows you all the available articulations of a given Synchron Player instance!**

Watch the videos how easy it is to assign articulations (called Sound Variations in Studio One) per drag & drop or by choosing from the drop-down menu.
