

Dear Vienna Newsletter Subscriber,

This month is all about keys and stops!

## NEW: Great Rieger Organ

#

With 116 stops for its five manuals and the pedal board, the legendary Great Rieger Organ at Vienna Konzerthaus is the largest concert organ in continental Europe. Being installed in a concert hall this “**Queen of Instruments**” is the ideal match for orchestral instruments.

Based on the samples of the VI Konzerthaus Organ this library comes with the all-new **Vienna Organ Player**, an innovative sample player with a user interface tailor-made for organ playing. It lets you easily manage the manuals and pedal of the organ so that you can conveniently access the different stops to create your registrations.
