

VIENNA SYMPHONIC LIBRARY

Dear Vienna Newsletter Subscriber,

We're very excited about our brand-new organ collection!

### NEW: Synchron Molzer Organ

This **beautiful salon organ**, built in 1938, was recorded on the large Stage A of Synchron Stage Vienna, enabling it to blend seamlessly with small or large orchestras playing in the same room, such as all of our Synchron Series products. The exceptional acoustics of Synchron Stage's large hall lend a special transparency to the organ, making it suitable for a variety of styles, from intimate chamber music to large orchestral works and to church music. Using the **Vienna Organ Player's** plentiful mixer presets, it can also be used as a solo instrument in all kinds of acoustic environments. The Molzer Organ is now part of the Collection of Historic Musical Instruments at **Kunsthistorisches Museum** in Vienna.
