

For Immediate Release

Vienna Ensemble Pro 7, Vienna Instruments Pro, Vienna Imperial Natively Support Apple Silicon

Vienna Symphonic Library's software products now compatible with M1/M2 Macs

Vienna, August 1, 2023 – The Vienna Symphonic Library is happy to announce the release of three software applications that support Apple's Silicon chips. Per many user requests, the free Vienna Instruments Pro player that powers the VI Series libraries as well as the Vienna Imperial player are now running natively on Apple's M1/M2 Macs.

Vienna Ensemble Pro 7, the company's LAN-capable mixing host is also Silicon compatible. The new and free update will install next to the Rosetta version in the Mac's Applications Folder (the latter labeled "Rosetta"). Users can run both versions of Vienna Ensemble Pro 7 simultaneously, hosting M1/M2 compatible plug-ins in the Silicon version, and non-compatible plug-ins in the Rosetta version.

To celebrate the new software updates, the Austrian company offers all VI Series Collections at an unprecedented discount of 45% through the month of August. Vienna Ensemble Pro 7 is offered at 35% off.

About the Vienna Symphonic Library

The Vienna Symphonic Library is an innovative, research-driven music software and sample library developer based in Vienna, Austria. The team continually strives to improve virtual orchestral music production with a special emphasis on authenticity and ease-of-use. **Vienna Instruments** and the **Synchron Series libraries**, the company's multi-award-winning virtual instruments in the formats AU, VST, and AAX Native, encompass an exhaustive range of solo instruments and ensembles, from the string libraries such as Synchron Duality Strings, Synchron Pianos including concert grands by Bösendorfer, Fazioli, Steinway, Yamaha and Blüthner, to special instruments such as the Great Rieger Organ of the Vienna Konzerthaus, historic and ethnic wind instruments, drums and percussion, and even distorted guitar. Acclaimed software products include the **Vienna Synchron Player, Vienna Instruments Pro, Vienna Ensemble Pro, Vienna MIR Pro 3D** and **Vienna Suite Pro**. In 2016, the company launched an entirely

new venture: **Synchron Stage Vienna**, a unique scoring stage in Austria's capital that accommodates orchestras of up to 130 musicians, merges proprietary software innovations and revolutionary approaches with state-of-the-art recording technologies and procedures.
