

Dear ...,

Multiply your possibilities of instrumentation!

### NEW: Synchron Duality Strings (sordino)

Add another layer of expression and sonority to your small and large string sections with these muted string ensembles, recorded exactly the same way as the first installment in the series, Synchron Duality Strings (regular). While the large ensembles played their instruments in Stage A, the small ensembles simultaneously played in the dryer Stage B of Synchron Stage Vienna, performing perfectly in sync, with a beautiful velvety timbre that's still bursting with variety.

Take advantage of the introductory offer **through October 30!**
