

# VIENNA POWER HOUSE

Powered by **GPU audio**

Dear ...,

Harness the power of your graphics card!

## New: Vienna Power House

Boost your computer's performance at the touch of a button! Vienna Power House is a groundbreaking add-on for Vienna MIR Pro 3D that offloads convolution processes to the graphics card in order to reduce the load on the CPU. Utilizing **GPU Audio's patented technology**, this powerful acceleration component frees up your CPU for other tasks by using the vast processing capabilities of the GPU. By lowering the CPU load by up to 50% or more, depending on your system, Vienna Power House provides you with significantly increased raw computation power at the click of the "GPU Power" button.
