

New from Vienna: Synchron Prime Edition with Flow View

Vienna Symphonic Library updates all-in-one orchestra package with additional user interface

Vienna, September 3, 2024 – The Vienna Symphonic Library is pleased to announce a significant addition to their powerful all-in-one orchestra package, the Synchron Prime Edition: Flow View. This new, easy-to-use and inspiring user interface presents the essential controls of each instrument for naturally getting into the playing flow without any technical distractions. Music creators can play with minimal effort, while algorithms take care of articulations and musical expression. With its clear layout, focusing on tone, performance, and sound, the new Flow View is easy to understand, easy on the eye, and easy to play with. The *Synchron Prime Edition* is currently available at its original introductory price of €445 (reg. €595).

Compose, Play, Flow!

With this entirely new Flow View of Vienna's proprietary Synchron Player, users will find a fresh approach to creating music with orchestral instruments, from adding a beautiful solo flute to their song, to arranging lush strings for a hybrid track, to creating bombastic brass for their epic trailers. The Synchron Prime Edition has always included pristine recordings and outstanding performances from Vienna's acclaimed and Hollywood-proven Synchron Stage Orchestra, taken from premium libraries such as Synchron Strings Pro, Synchron Brass, Woodwinds, Percussion and more. Now, with the additional Flow View, it's even more fun to play – a symphonic gem for mind-blowing performances right out of the box.

For users who want to delve deeper, the previous GUI of the Synchron Player, now dubbed Precision View, is still available for access to more features and tweaking options.

The One-Stop-Shop for Orchestral Grandezza

The Synchron Prime Edition gathers the essential instruments and articulations of Vienna's highly successful Synchron Series into one affordable and resource-saving collection that is easy to use, versatile and a breeze to play. It includes stellar performances by the acclaimed solo instrumentalists and ensembles of the Synchron Stage Orchestra, who are lending their talents and artistry to clients from Hollywood and all over the world on a daily basis. Captured with a state-of-the-art multi-microphone setup in one of the best scoring stages on the planet, the recordings feature the outstanding ambience of Synchron Stage Vienna.

All the instruments in this collection are so well-balanced and matched that it's easy to create entire orchestral arrangements or simple parts quickly and effortlessly. Mixer presets allow users to place all the instruments and ensembles in a variety of settings, from close-miked to different types of ambience and reverb. Users can also easily create their own sound using the Vienna Synchron Player's integrated mixer and its host of effects. Each instrument comes with a Room Mix that blends overhead Decca tree mics and surround mics to a stereo signal, in addition to a close-mic signal for solo instruments and a mid-mic signal for ensembles. Conducting a full-scale, top-notch orchestra in a legendary venue and recording it in the DAW has never been easier.

About the Vienna Symphonic Library

The Vienna Symphonic Library is an innovative, research-driven music software and sample library developer based in Vienna, Austria. The team continually strives to improve virtual orchestral music production with a special emphasis on authenticity and ease-of-use. **Vienna Instruments** and the **Synchron Series libraries**, the company's multi-award-winning virtual instruments in the formats AU, VST, and AAX Native, encompass an exhaustive range of solo instruments and ensembles, from Synchron Duality Strings and Synchron Elite Strings, Synchron Pianos including concert grands by Bösendorfer, Fazioli, Steinway, Yamaha and Blüthner, to special instruments such as the Great Rieger Organ of the Vienna Konzerthaus, historic and ethnic wind instruments, drums and percussion, and even distorted guitar. Acclaimed software products include **Vienna Ensemble Pro**, **Vienna MIR Pro 3D** and **Vienna Suite Pro**. In 2016, the company launched an entirely new venture: **Synchron Stage Vienna**, a unique scoring stage in Austria's capital that accommodates orchestras of up to 130 musicians,

merges proprietary software innovations and revolutionary approaches with state-of-the-art recording technologies and procedures. Since 2016, clients from Hollywood and all over the world recorded music for projects such as The Rings of Power, Mission Impossible: Dead Reckoning 1, Guardians of the Galaxy Vol. 3, American Fiction, Dune, Ms. Marvel, Reacher, The Crown, Cinderella, Ad Astra, Blue Planet, Rolex, Mercedes, Stolichnaya, and hundreds more.
